

**No of Elective
E0**

Name of block	Block 2
Name of the Elective	To study indications for performing endoscopy in ENT OPD and OT
Internal preceptor	Dr Manu wilfred
External preceptor	
Learning objectives	To know the indications of performing endoscopy in various ENT diseases To study how endoscopic procedures help in management of ENT conditions
No of students	2
Prerequisites	Knowledge of anatomy of nose,ear, oral cavity, oropharynx, larynx and hypopharynx.Students should know the procedure of endoscopy in ENT.
Learning resources	Diseases of ear nose & throat by P L Dhingra
List of activities	Watch endoscopy procedures like DNE,VLS,otoendoscopy in ENT OPD and OT and indications of doing these. Record findings in proforma. Note the management given to the patient based on the findings of endoscopy.
Portfolio entries	List comorbidities like diabetes List aetiology like addictions Record surgical findings of patients managed surgically.
Logbook entries	Prepare proforma Enter data of all patients Prepare a master chart and analyze
Assessment	Submit the study in ENT department.

Name of the Block	Block - 2
Name of the Elective	To study the aetiology and management of hearing loss in patients attending ENT OPD
Location of Laboratory	ENT OPD
Internal Preceptor	Dr. Mohamed Faisal C.K.
External Preceptor	
Learning Objectives	To assess the degree and type of hearing loss To study the aetiology of hearing loss To describe various management options adopted in ENT Department
No of Students	2
Prerequisites	Students should know classification of hearing loss, aetiology of different types of hearing loss. They also should know to interpret PTA
Learning Resources	Diseases of Ear, Nose and Throat by Dhingra
List of Activities	<ol style="list-style-type: none"> 1. Perform history taking and examination of patients with hearing loss, and record data in a structured proforma. 2. Find out the aetiology of hearing loss 3. Record PTA results of these patients 4. Enter the treatment given to the patient
Portfolio Entries	List comorbidities like diabetes, ckd or any medications for each patient List any chronic noise exposure. Observe PTA being performed atleast one in day. If any patients with hearing loss are managed surgically record the surgical findings .
Logbook Entries	Prepare a proforma Enter data of all patients Prepare the master chart Do a statistical analysis
Assessment	Submit the study report in ENT Department.
